

Content & Asset Collection Guide

This document is your checklist for everything we need to build your website. Work through each section and provide the listed files, text, and information. You do not need technical knowledge — just fill in what you have and upload the files.

PREPARED FOR

PROJECT

Architecture / Interior Design Website

VERSION

1.0 — Linked to customization-inventory.md

How to Use This Guide

- 1. **Fill in** each text field with your real business information.
- 2. **Gather files** for every item marked  **Image / File**.
- 3. **Name each file** using its reference code (the orange badge, e.g. **G-005**) — for example: G-005-Logo-dark.png. This lets our team and AI tools place each file in exactly the right location automatically.
- 4. **Send everything** in one folder/drive share.
- 5. Items marked **Required** must be provided before work can begin. **Optional** items can be added later.

1

Your brand name, colors, and fonts
